TO WHOM IT MAY CONCERN:

As the Executive Director of the United States Gymnastics Federation (USGF), I would like to give my strongest recommendation to the honored coach Anatoly Kozeev from Moscow, Soviet Union.

He has been a major force in the development of the gymnastics program in the Soviet Union over the past twenty years. He has led them to the Olympic, World, and European Championships over the past thirteen years.

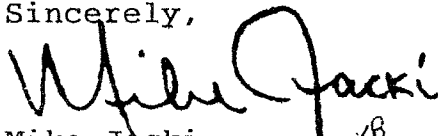

Mr. Kozeev has won many awards all over the world. The Soviet Union has awarded him the "Merited Coach of the Soviet Union", this is the highest award presented to a coach in the USSR.

As Head Junior National Coach, he has developed numerous gymnasts that have won the National Junior Championships, as well as European and World competitions.

The presence of Mr. Kozeev in the United States would be an invaluable help to continue development in the USGF, as well as help in moving us further up the ladder of the gymnastics world.

I would be available for further information regarding this outstanding coach.

For the United States Gymnastics Federation,
Sincerely,

Mike Jacki ^{KB}
Executive Director
